## FUTURE INDEXES

This index covers Volume 261 of The Mining Journal for the period July to December 1963. The Mining Magazine index for the same period (Volume 109) was published in the December, 1963, issue of the Magazine. Following the major reconstruction of the editorial content of both publications in January, 1964, a single index will be published in the future covering both Mining Journal and Mining Magazine.
